117 CREDIT HOURS

DEGREE

OBJECTIVES

The Cosmetology Business program will provide students with a business foundation that will extend their applied emphasis in cosmetology by preparing graduates for further advancement towards independent ownership, potential entry-level managerial and other beauty industry-related career opportunities. The required general education coursework will establish critical thinking and problem solving skills, which will be enhanced throughout the business specialization coursework.

For eligibility and acceptance in the Cosmetology Business A.A.S. degree program, students must have successfully completed a licensed cosmetology program and hold a current cosmetologist license. Cosmetology coursework must meet the minimum contact hours as stated in the admissions section of this catalog. Documented work experience of 1 year or greater as a licensed cosmetologist may be considered for credit equivalency of partial fulfillment of Clinic (Practicum) Contact Hours; education department personnel will review such requests.
